of The US, Pursuant to Nationwide Permit 44 (Mining Activities)

Dear Mr. Campbell:

The US Army Corps of Engineers (Corps) issued a final notice in the Federal Register on January 6, 2017 reissuing the Corps' Nationwide Permits (NWP). NWP authorize activities that have minimal individual and cumulative adverse effects on the aquatic environment. On March 7, 2017, the South Carolina Department of Health and Environmental Control (Department) certified the NWP in accordance with Section 401 of the Clean Water Act and the S.C. Coastal Zone Management Act (48-39-10 et seq.).

The Department has reviewed the above-reference project in accordance with the March 7, 2017 certification and, provided the applicant adheres to the certification conditions outlined in the attached document, the Department has determined that there is a reasonable assurance that the work authorized will be conducted in a manner consistent with the certification requirements of Section 401 of the Clean Water Act.

Sincerely,

Monica Taylor
